Creative Explorations: From Social Entities to Ubiquitous Systems

Connect for Creativity's third and final networking conference titled 'Creative Explorations: From Social Entities to Ubiquitous Systems' on 'How digital is changing the way we relate to each other' will be held online on 24 – 25 September due to the COVID-19 measures.

The conference will consider themes within the context of the emergence of new business models, the rise of creative cities, technology disruption, and innovative approaches to content creation and distribution, and evidence-based policymaking through keynotes, panel discussions, workshops, and structured networking opportunities.

By bringing together local, national, and international pioneers from the creative and cultural sectors, startups, brands, policy and digital technology communities, the conference aims to build dialogue and foster new collaborations between cultural actors in Greece, Serbia, Turkey, the UK, and beyond.

The two-day conference is open to the public and free of charge. Registrations for the conference can be submitted until Sunday, 20 September.

Read more information and register here.

Connect for Creativity is led by British Council, ATÖLYE and Abdullah Gül University in Turkey, BIOS in Greece and Nova Iskra in Serbia.

Co-funded by
the European Union
