CREATIVESUNITE

Co-funded by

Deadline:15 November 2022

What is EFFEA?
Emerging artists are the treasure of society, creative minds, explorers who have the power to shape the future through their art. EFFEA was built exactly on this idea: to explore/discover these talents and to support emerging artists by offering them a platform to develop their career under the festivals wings; support them in their journey.

The activities include 50 residencies for emerging artists in the seat of 50 festivals - including the collaboration with at least two other festivals per project per year, based on an annual call to festivals. The Fund will foster and enable European visibility of emerging artists. It will address the needs of artists at different levels (research, capacity building, network, presentation platforms), the needs of festivals (programmers capacity building, alertness, internationalisation, collaboration), and audiences (access to diverse artists and arts works).
