2025 Partner Residency in Paris - Call for Proposals

In preparation for the 150th Anniversary of the historic Atelier 11 Cité; Falguère, L'AiR Arts is inviting cultural, academic and art institutions worldwide to become partners in this unique living heritage initiative by creating art residency opportunities for their candidates in Paris

Established in 1875, [Atelier 11](#) stands as the last surviving studio of the world's longest-running international artists' residency still in operation. Once a thriving L'École de Paris hub boasting home-ateliers of Gauguin, Foujita, Modigliani, Brancusi and Soutine, it hosted hundreds of French and international artists throughout the 19th and 20th centuries. Recently recognized as a heritage site, Atelier 11 is scheduled to undergo rehabilitation to continue welcoming artists and cultural professionals as an International Arts Research Residency.

To celebrate the inclusive history of the École de Paris and to foster intercultural exchange, L'AiR Arts launches a global call for partner institutions interested in offering art residency opportunities for their candidates at Atelier 11 in Paris. Residents must receive support from one or more cultural partners who submit proposals and assume responsibility for covering the costs associated with the residency.

RESIDENT PROFILE

Atelier 11 residency program is designed for artists and cultural professionals of all ages, from all countries and all creative disciplines who wish to develop their artistic research and/or project in Paris.

RESIDENCY DURATION

Two weeks to two months

TERMS OF RESIDENCE

Partner institution(s) help to offset the costs of upkeep and preservation of the historic Atelier 11 residency, while also creating a nurturing and productive environment for the residents. Atelier 11 residency offers two individual furnished living studios, communal work and exhibition space, research library and a meeting room with a fully equipped kitchen. The residency also provides programming, communications and event support based on individual project needs. In addition to contributing towards the residency program, partner institution(s) cover the cost of return travel and provide the resident with a living allowance; they also ensure that the resident has a visa allowing him/her to stay in France and insurance covering medical expenses and civil liability for the duration of the residency.

APPLICATION SUBMISSION

Applications for residencies starting in 2025 must be submitted by the institutional partners via our [online platform](#) before September 20, 2024.
