# Join the "Towards the ARCHE SRIA" workshop on 25 September 2024 in Florence, Italy, to engage with heritage professionals and shape the future of cultural heritage research and innovation. Applications are now open.

Application Deadline: 8 September 2024

Organizer: The Institute for Heritage Science of the National Research Council of Italy (CNR)

Who is it for: All cultural heritage professionals and city representatives

--

For more info and to apply visit the workshop's [website](#).

The [Institute for Heritage Science](#) of the National Research Council of Italy (CNR) is inviting all cultural heritage professionals and city representatives to the workshop "Towards the ARCHE SRIA" on 25 September 2024. This event, part of the Horizon Europe-funded ARCHE project (Alliance for Research on Cultural Heritage in Europe), will be held at the [Innovation Center di Fondazione CR Firenze](#). The workshop will present the preliminary findings of the new Strategic Research and Innovation Agenda (SRIA), a roadmap that will shape joint transnational activities within the [European Partnership for Resilient Cultural Heritage](#) (RCH) starting in 2026.

Due to limited venue capacity, early registration is encouraged for on-site participation. To secure your spot, please register here by 8 September 2024. Online participation is also available for those unable to attend in person. The event will be held in hybrid format (both on-site and online participation available). During the workshop, attendees will review and respond to the preliminary findings of the SRIA, which has been collaboratively developed through consultations with internal

and external stakeholders. The initial workshop, "Resilient Cultural Heritage in Times of Climate Crisis," held in Berlin by the Prussian Cultural Heritage Foundation (SPK) in April 2024, set the stage for ongoing stakeholder engagement.
