and 120 other locations worldwide

Events | All Europe Countries | International | All CCS and Cross-sectoral | COVID 19

Ars Electronica 2020

Ars Electronica 2020 is a journey to measure the “new” world and a journey through “Kepler‘s Gardens“, which are located in Linz at the JKU Campus and at 120 other locations worldwide. September 9-13, 2020.

From Auckland to Johannesburg to Los Angeles, from Bergen to Antarctica, universities, museums, galleries, clubs, communities and businesses in 120 locations around the globe host hundreds of exhibitions, conferences, performances, concerts and workshops aimed at local audiences – Stay Home, Stay Safe! Ars Electronica, in turn, uses these events to form a festival on the Net that makes all these local activities and perspectives accessible to an international community.
