Brainstorming Report ‘Status & Working Conditions for Artists, Cultural and Creative Professionals’

CREATIVESUNITE

Co-funded by the European Union

This ‘Status & Working Conditions for Artists, Cultural and Creative Professionals’ Brainstorming Report results from a Brainstorming Meeting organised by Voices of Culture on the 27th and 28th of April 2021.

This Brainstorming Report was presented to the European Commission in a Dialogue Meeting on the 29th of June 2021.

The Structured Dialogue framework enables communication between the European Commission and the cultural sector. Its main objective is to provide a channel for the voice of the cultural sector to be heard by EU policymakers, a voice represented by a group of expert practitioners in Europe selected through an open call. These dialogues are also intended to strengthen the advocacy capacity of the cultural sector in policy debates on culture at a European level, whilst encouraging the sector and the Commission to work in as collaborative a way as possible.

It is important to stress at the very outset, that the use of ‘culture’ throughout this report is intended to be inclusive, its use embracing, at the very least, the arts, participation, creative and heritage sectors.

Voices Of Culture Brainstorming Reports are 100% drafted and written by participants:

- Andea Association Nationale des Ecoles Supérieures d’Art
- Art Centre KulttuuriKauppila
