

All CCS and Cross-sectoral Slovenia Residencies

Center Rog | Makers in Residency Programme

Center Rog is inviting makers with specific sets of skills to apply for the Makers in Residency Programme in Slovenia, an exceptional opportunity to establish a unique creative environment in the largest public creative hub in Europe.

Are you a passionate maker, innovator, or creative thinker? Are you driven by collaborative projects, cutting-edge technologies, and exploring the limitless possibilities of making? Center Rog is inviting makers with specific sets of skills to apply for our Makers in Residency Programme in Ljubljana, Slovenia — an exceptional opportunity to be part of a journey in establishing a unique creative environment in the largest public creative hub in Europe, opening this October!

Center Rog is seeking up to 6 different makers who will draw from their experience to set up their workspaces and labs. As a participant in the Makers in Residency Programme, you will play a vital role in shaping the future of Center Rog. You will have the unique opportunity to contribute your expertise, skills, and vision in setting up and equipping our production labs dedicated to cookery, textiles, 3D printing, electronics, woodworking, metalworking, glass & ceramics, jewellery, and research of new materials.

One-month-long residencies will start with 2nd of October 2023, running until 20th of December. Center Rog will cover your accommodation and offer financial support of 1.400 EURO per residency for travel, allowance fee and other expenses.

Deadline: 30 August 2023
