Creative FLIP | Open Call for Twin Hubs

CREATIVESUNITE

Co-funded by
the European Union

Are you interested in exploring innovative ways of collaboration, exchanging best practices with another creative hub and co-creating a community event?

Creative FLIP launches the “TWIN HUBS” Exchange Program aiming at engaging peers from creative hubs across Europe and acting as a springboard for the establishment of sustainable and long-term partnerships among the hubs community.

TWIN HUBS is a blended mobility peer to peer program for hubs based on the “sister cities” model. It foresees a matching of two hubs who will commit to a one-year long cooperation and exchange program, involving blended mobility – with a combination of online meetings, community exchange, and a classic P2P exchange program between hub members.

During 2022-2023, Creative FLIP will organize and support 25 partnerships between creative hubs throughout the EU and its neighborhood. Each twinning will enable two representatives per hub – a member of the hub managing team and a hub community member – to exchange online and in person. This will provide an opportunity to a total of 100 individuals to experience working in a different creative hub, as well as to engage in a mutual learning experience with their hosts.

-25 Twinnings
-50 mobilities for hub managers
-50 mobilities for hub community members
-25 final community events

Applicants are encouraged to pre-match with another hub. Otherwise they can request matching support from the Creative FLIP project team when filling in the application form.

The deadline for applications for the TWIN HUBS exchange program is 5 September 2022 (23:59 CET)
