Discovery Campus 2026 Opens International Call for Film Industry Talents

Discovery Campus, the international talent development programme of Industry@Tallinn & Baltic Event and the Tallinn Black Nights Film Festival, has opened applications for several of its specialised training strands. The programme offers hands-on workshops, masterclasses, networking opportunities, and professional exchange across multiple areas of the film industry.

Deadline: 15 June 2026 (Black Room, Frame Within a Frame, Music Meets Film); 30 June 2026 (Script Pool)

Organisers: Industry@Tallinn & Baltic Event, Tallinn Black Nights Film Festival (PÖFF), and international partners

Who is it for: Cinematographers, production designers, art department professionals, film composers, directors, screenwriters, producers, and emerging film industry professionals

About the Programme

Discovery Campus is the international educational programme of Industry@Tallinn & Baltic Event, taking place during the

Tallinn Black Nights Film Festival. The initiative brings together emerging talent and established film professionals from around the world through workshops, masterclasses, mentoring activities, and networking events.

The programme aims to foster professional growth, international collaboration, and knowledge exchange across different fields of the audiovisual sector. In 2026, approximately 65 emerging professionals will be selected to participate.

Discovery Campus forms part of the wider Industry@Tallinn & Baltic Event programme, which celebrates its 25th anniversary in 2026 and takes place in Tallinn, Estonia, from 9–20 November 2026.

Currently, Discovery Campus calls for submissions in four of its strands:

- [Black Room](#) focusing on the art department and production design
- [Music Meets Film](#), dedicated to film music,
- [Frame Within a Frame](#) for cinematographers;
- [Script Pool](#) competition, showcasing five international projects and their teams

Open Calls

[Black Room](#) focuses on production design in film. The sessions will take place on 16th-20th November 2026. The four days of workshop will be divided into topics like production design and art directing, collaborations within the art department, and tools to expand your artistic toolkit.

[Frame Within a Frame](#) programme invites participants to join for an intensive workshop taking place in Tallinn, Estonia, from 16-20 November 2026, as part of the Discovery Campus of Industry@Tallinn & Baltic Event that is followed by a session at the renowned Aalto University in Helsinki, Finland, 22-28 November 2026.

The masterclass session of the programme goes beyond theoretical discussions, offering invaluable hands-on experience with the latest and most innovative technologies shaping the future of cinematography. Explore and experiment with cutting-edge equipment under the guidance of industry-leading professionals. Find out more

[Music Meets Film](#) brings together composers and directors; from music and sound creatives to producers, agents, and the wider music and film industry. It aims to build bridges between

creatives, grow as an interdisciplinary meeting place, and encourage new international collaborations between students and professionals. Read further

[Script Pool](#) established in 2017, is part of Industry@Tallinn & Baltic Event film market activities and Discovery Campus educational program. Each year it highlights five international projects and the team behind them—director, scriptwriter, and producer. The aim is to gather film projects with international potential, high distribution value, a final draft in place, and some financing secured.

The call for Script Pool competition, showcasing five international projects and their teams (director-scriptwriter, and producer) is open until 30 June 2026.

What to Expect

Selected participants will benefit from:

- Hands-on workshops and masterclasses
- Mentorship from internationally acclaimed film professionals
- Access to leading industry experts and decision-makers
- Networking opportunities with peers from around the world
- Exposure to new technologies and creative practices
- Participation in Industry@Tallinn & Baltic Event and the Tallinn Black Nights Film Festival

The full Discovery Campus programme for 2026 will be announced in autumn.

Additional Opportunities

Alongside Discovery Campus, Industry@Tallinn & Baltic Event is currently accepting submissions for the Baltic Event Co-Production Market and TV Beats Co-Financing Market, while additional educational programmes including Tallinn Industry Academy and Breaking into the Industry will open later in 2026.
