ELIA | Academy 2023 Exploring Situatedness

The event will take place from the 10th to the 12th of May 2023 at Évora, Portugal.

Theme

ELIA Academy 2023 invites you to situate yourself in the city of Évora. Explore the situatedness of this culture, heritage and place. Experience Portugal's Alentejo plain as a confluence of complex interwoven histories and artistic sensibilities. Bring your own perspectives and engage with this celebrated UNESCO World Heritage site as arts educators, students, practitioners and professionals. Reflect on how art is created now and how it is defining its value for the future. Take a moment to consider your place in time and space, and share what situatedness means to you.

ELIA Academy host, [University of Évora, School of the Arts](#) beckons you towards this unique hinterland which calls for contemplation, specific interpretations and responses. You will adjust to a particular form of slow living. Allow yourself to decelerate and experience the landscape as education. You will explore new learnings that will inform the work environments, teaching practices, research and artistic investigations. Take this opportunity at ELIA Academy 2023 to reflect on the past and present to forge new futures together.

Thought lines

- Discover new ways of transforming artistic practices, research and education grounded in the theory of "situatedness".
- Understand how we see and live in the world differently based on our past experiences and understanding of artistic, cultural and social contexts.
- Advance arts education, and pave new ways to build its future digitally, equitably, and sustainably.
- Define and promote sustainability in arts education.
- Step away from the hectic pace of present-day life and boost your creativity and well-being while challenging the established principles of today's education structures.
