ELIA | Event Future (Im)perfect

The event will take place on 16th February 2023 online.

ELIA Future Arts is an experimental interactive online series exploring the potential of technological developments in immersive and interactive arts education.

ELIA Future Arts invites you to experience new possibilities, co-create in a virtual environment and discover uncharted digital territories. You will uncover new teaching methods, create new digital spaces for collaboration, and discuss the potential of VR and new technologies in arts education.

Join the closing episode of the ELIA Future Arts series. During this online event you will be involved in thought-provoking presentations and discussions about the real-world implementation of technology and the challenges within the intersection of art, industry and education.

In three expert sessions, will discuss the ethical frictions related to AI-generated and immersive technology (AR/VR) in art, virtual communities of creative learning, and technology-infused strategies for arts teaching and learning.

The episode will bring together educators, teachers, students, artists and industry representatives in critical conversation. Get real and share your immersive experiences!
