EUmies | Young Talent Awards 2023

EUmies is organising Young Talent Awards 2023 aiming to bring together talented emerging architects from different institutions across Europe to participate in the granting ceremony and debate with the winners.

The European Union Prize for Contemporary Architecture, Mies van der Rohe Awards (EUmies Awards), founded in 1988 in Barcelona by Fundació Mies van der Rohe and the European Union's programme to support the cultural and creative sectors, are annual awards recognizing excellence in built works of architecture in Europe (Architecture and Emerging) and final diploma works by recently graduated architects (Young Talent).

Young Talent aims to support the talent of recently graduated Architects, Urban Planners and Landscape Architects, who will be responsible for transforming our environment in the future. It emerged from an interest in the initial stages of these students' development and a desire to support their talent as they enter into the professional world.

By bringing together the most talented graduated architects and some of the best architecture firms and institutions in Europe, the Young Talent Winners have the chance to develop strategies, synergies or complementarities with the firms and institutions of their interest/choice.

The EUmies Awards Young Talent is an initiative of Creative Europe and the Fundació Mies van der Rohe with the support of ACE-CAE and EAAE. World architects is the strategic partner of the Prize, which is possible thanks to the partnership with Jung, Jansen and Regent Lighting and the support of USM modular furniture and Alma and the venue partner in Venice, the European Cultural Centre.

Event: 29 June 2023 Venice, Italy
