Hungry EcoCities Residency: AI-Driven Art for Sustainable Agri-Food Systems

CREATIVESUNITE

Amazing opportunity for artists to explore one of the most pressing challenges of our times: the need for a more healthy, sustainable, responsible, and affordable agri-food system for all enabled by AI.

Deadline: September 20, 2024

Organizer: [S+T+ARTS](#), Hungry EcoCities
Who is it for: Artists with experience in the agri-food sector. Individual artists and freelancers in creative disciplines such as creative technologists, media artists, creative coders, artistic front & back-end designers, and digital artists.
Prize: Up to €37,500, including a participation fee for Jury Day and a residency stipend.

Apply [here.](#)

What is it about:
[Hungry EcoCities](#) aims to accelerate responsible innovation in Europe's agri-food value chains by integrating art-driven experimentation and prototyping. This second Open Call will showcase how this approach can enhance AI-enabled responsible innovation for a sustainable food chain.

Selected artists will collaborate with end-users to address specific local challenges through artist-driven experiments conducted in local test sites such as supermarkets, bio farms, community gardens, production facilities, and restaurants. These teams will work together to propose and implement innovative solutions in these real-world settings.

Residency Offer:

-Up to €37,500: including €1,500 for pre-selected artists for

CREATIVESUNITE

Co-funded by
the European Union

Jury Day participation and €36,000 for artists joining the Paths to Progress Experiments (PPE) residency for 8 months.
-Access to scientific expertise from the Hungry EcoCities scientist group.
-Access to creative studios and directions on the future of food, plus the Knowledge Hubs network.
-Access to CRA Factory in Turin, with equipment like 3D printing, laser cutting, and crafting tools for prototyping, along with technical support.

Who Can Apply:

The programme is looking for artists who are:

-Natural persons running a business or not, acting as an artist.
-Individuals or entities registered under NACE Code '9003 Artistic creation'.
-Self-employed individuals (freelancers) who undertake artistic activities professionally, such as creative technologists, media artists, creative coders, artistic front & back-end designers, digital artists, etc.
