Stories / Good practices Cultural Heritage & Museums Literature & Books Serbia Bosnia and Herzegovina COVID 19 Italy – a digital library

A digital collection containing valuable old books, as a result of the cooperation between University Library of Belgrade, University Library of Banja Luka and Library Lazic (the library of Adligat Society).

The aim of this initiative was to give support to Italian people in their fight against Covid-19 as well as to motivate people to get to know history, expand their knowledge and to have fun especially during quarantine time. By reading books it is able to transcend limits of time, space and culture. These three libraries have selected from their old and very valuable editions printed in Italian language, and they have digitized them in order to make them public. The collection will continue to grow with new items. Find more information <u>here</u>.
