About London Contemporary

London Contemporary is an international art fair that brings together groundbreaking works from visual artists, architects, and designers. Participants are encouraged to explore the

themes of desires, fears, and transformation, using their creative processes to evoke change and evolution.

This edition of the fair serves as a hub for cultural exchange, offering artists exposure to a dynamic network of industry leaders, including curators, gallerists, and collectors. This year's theme will analyze the relationship between body and space, and the hybridization between identities and cultural/physical/social/urban settings in contemporary times.
