New european Bauhaus | Capacity Building for Reconstruction of Ukraine

The event will take place on the 16th of March online.

The launch event of the New European Bauhaus [Capacity building programme for the reconstruction of Ukraine](#) will take place on the 16th of March at 15:00 CET.

This programme that was announced by Commission President Ursula von der Leyen in Kyiv in February will provide both inspiration and practical help for municipalities involved in the reconstruction and rebuilding of Ukraine and promote the values of the New European Bauhaus, sustainability, aesthetics and inclusion, as a guiding principle for the reconstruction.

The programme will consist of a series of online webinars, starting in April. All modules are based on a thorough assessment of the needs of Ukrainian municipalities conducted in autumn 2022. The programme is organised by and with our Ukrainian partners Ro3kvit, ReThink, Covenant of Mayors East and the Architects' Council of Europe.

This high-level event of two hours will set the political framing of the capacity building and give an overview of the upcoming three modules.

The event will be held both in English and Ukrainian, with simultaneous translations.
