Sound and AI Production merge in Valencia

Curiosibot Lab's new residency blends art and AI, allowing musicians and sound artists to redefine their craft through mentoring and thorough training sessions.

Deadline: September 18, 2024

Organizer: Curiosibot Lab in Russafa, Valencia
Who is it for: Musicians, composers, and sound artists eager to explore new methods in music production using AI technology. Open to both emerging and established artists globally.
Prize: Funded residency including living expenses (€25 per day), studio workspace, mentoring, and a stipend for living expenses, travel (up to €700), and materials.

Apply here

About the Program:
The CREAte Music Residency at Curiosibot Lab offers a unique opportunity for musicians and sound artists to push the boundaries of their craft by integrating new AI technologies. Located in the artistic neighborhood of Russafa, Valencia, this residency is for artists who are interested to explore new frontiers in music production and performance.

During this one-month residency, participants will have access to a fully equipped studio and receive mentorship in AI-driven music tools such as Google Colab and the Combobulator plugin. The residency focuses on the creation of unique samples and sounds, offering hands-on training regardless of the artist's prior experience with AI.

The residency includes a stipend for living expenses (€25 per day), travel (up to €700), and materials, along with on-site accommodation and access to studio space.

Residency Offer:
Artists will stay in a studio apartment with essential amenities

and have several hours of dedicated access to the Curiosibot Lab studio each day. In addition to technical training and mentoring, participants will have the chance to work closely with external collaborators like Ben Cantil from Datamind Audio, who will guide them in utilizing AI tools to enhance their music.

At the end of the residency, artists are encouraged to share their experiences through presentations or workshops and contribute to the growing community at Curiosibot Lab.

Eligibility criteria:

- Applicants must be 18 years of age or older.
- Each applicant must be a legal resident in one of the 40 Creative Europe countries, this includes the Overseas Countries and Territories and Outermost Regions of the European Union.
-They shouldn't have already received a grant through Culture Moves Europe.
-They should have a bank account in a creative Europe country.
