Transmediale 2021 - 2022 | A year-long Festival

The upcoming edition of transmediale will unfold via online and in-person events. This new expanded structure, formulated in response to COVID-19, will create a year-long engagement with the festival theme.

Transmediale 2021 - 2022 will present a collection of exhibitions, screenings, and discourse programmes, which, along with residencies, workshops, and commissions, will explore the material, technological, and cultural aspects of refusal.

The Festival begins in January 23rd.
